

NEW

- + Extremely simplified hydraulic motor (35 vs 96 parts).
- + No metal parts in the motor. Valve activation system with plastic spring.
- + Better reliability and lifetime due to fewer moving parts.
- + Very easy maintenance thanks to a simplified design.

The DOSATRON D9 Green Line products were designed to comply with the highest international approved sustainability standards.

 **DOSATRON®**
Because life is powered by water®

 **IRRIGATION**

D9 GREEN LINE The Fertigation Reference

- + Best fit for tough hydraulic irrigation installations
- + Extremely easy to maintain
- + Enhanced chemical compatibility
- + Increased reliability

NEW

D9GL

Water flow: 500 l/h - 9 m²/h

www.dosatron.com

Best fit for tough hydraulic irrigation installations
Resistant even with empty pipes startup.

Extremely easy to maintain
No tools required.
Motor parts easy to replace.

Enhanced chemical compatibility
Motor entirely made of plastic parts, no metal parts.
High chemical compatibility with corrosive products. pH correction / cleaning.

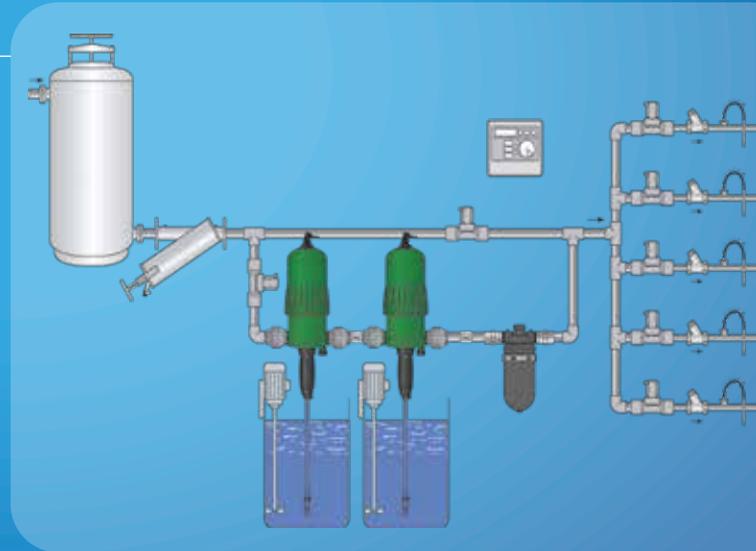

Increased reliability
Optimised design: number of parts reduced by 60 % (vs former D8 unit) :
35 vs 96 parts
